WORK EXPERIENCE

FDGS

Software Engineer | 2024 - Present

- Built fdgsenergygroups.ch with other engineers . The platform is running on aws, backend on Nodejs ,
- We are currently developing an innovative solution designed to address the everyday needs of Nigerians.

AdvvatisenG

Software Engineer | 2023-2024

- I built advaatise.com . The platform has a backend technology on .Net . Built to make advertising services easier to book by clients and also easier for Advaatise to render the services by having skill workers onboard.
- Initiated and scoped a future solution designed to streamline marketing processes, currently in the planning phase for development.

PenafortNG

senior Software Engineer | 2024

- Frontend on Nextjs with backend on Python.
